

Strahan Sept 8 1907

Dear Sir

I heard you was disappointed
with the Timber but I
was telling Mr. Bantic
it was going to fetch
some Timber to the
mill for you and he
told me he could not
lift Big logs out of the
Water so that is how
I sent the small ones
and I allowed a fair
thing on all the faulty
logs and I took
sixpence per 100 of them
if they could be lifted

the Big logs I would
of taken them so I
don't think you ~~can~~
can blame me I never
thought that log would
have turned out like
it did or else I would
never took it so I took
it off the list

yours Truly
J. M. Donald
